

# ELECTRICAL SAFETY LEGISLATION POLICY

## Obligations under the Qld Electrical Safety Act and Regulations

CV Services is a diversified trade services group dedicated to delivering the edge in technical services and visual solutions. The CV Service Group provides a broad range of complementary offerings across our four businesses; Electrical Construction, Energy Services, Asset Services, Media and Signage. Our Vision is “to be the first choice supplier in our industries” we will achieve this through our mission of “delivering the edge - with great people, great customers and great systems”.

CV Services management will fulfill their obligations under the Electrical Safety Act and Electrical Safety Regulation by:

- developing operational procedures and providing training to team members to ensure that all work complies with requirements and is electrically safe;
- ensuring that all electrical equipment, tools and safety equipment is regularly tested/examined to enable all work to be completed in a safe manner; and
- instructing team members in the correct use of personal protective equipment (PPE) and other equipment so that all persons have the knowledge to work safely and ensure a safe work place for others.

Team members will fulfill their obligations under the Electrical Safety Act and Electrical Safety Regulation by:

- complying with company instructions and ensuring that any electrical work completed is safe;
- using PPE, instruments, tools and safety equipment to complete all work in a safe manner and in compliance with legislative requirements; and
- not willfully interfering or misusing anything that may create an unsafe situation for themselves or others.

All team members must adopt a “test before touch” approach and treat all conductors and equipment as live until proven otherwise.

Every electrical incident or dangerous event will be reported and investigated in accordance with the CV Services Incident Reporting and Investigation Procedure.
